

## **COVID Protocols for Artbarn School - Updated July 2022**

These protocols have been developed in accordance with Toronto Public Health guidelines.

### **Vaccinations**

All of our staff are fully vaccinated. All adults coming into the studio for in-person classes are required to be fully vaccinated.

### **Screening**

Staff and students will not enter the school if sick. A poster for passive screening will be displayed as a reminder.

### **Masks and Face Coverings**

All staff, teachers and students will be required to wear a mask while inside the school during classes unless they have an exception due to a medical condition. Masks will be provided for those staff and students who might have forgotten theirs.

### **Ventilation**

There is a HEPA filter air purifier in each of our 2 studios. Doors will be opened when appropriate, exhaust fans will be used and HVAC filters will be replaced every three months.

### **Preventing Crowding**

We will stagger our class times to ensure that there is no crowding.

**In the event of closure due to a Public Health order or teacher/student illness due to Covid-19, students will be offered a spot in an online art class or a credit will be provided. No refunds will be provided if the school is closed due to Covid-19.**
